Perfect for New Construction and Retrofits

Designed to replace existing air handlers. Easily adapts to your existing duct work. For new installations where ductwork is preferred. All electric heat pump replaces gas furnaces and AC coils to save energy and lower operation costs.

Install Horizontally or Vertically

UC Unit can be installed in a vertical or horizontal configuration, giving you the flexibility to install according to your desire or need. Because it can be horizontally mounted, it's a great solution for installations with minimum space, like an attic or crawl space.

Multiple Protections

Anti-freezing, temperature sensor malfunction, and fan motor overload protection.

Wall Mount Control

Wall Mount Control lets you adjust settings, and use a Remote Control.

Thermostat Controller

By using a YMGI bridge controller, North American style thermostats (Nest, Honeywell, Pro1, YMGI etc.) can be used for temperature control, locally or remotely, individually or in groups.
