A VRF SYSTEM THAT STANDS ALONE

YMGI's UltraHeating VRF systems are designed to deliver comfort year round. Effective in a wide range of outdoor ambient temperatures (as low as -22° F), the YMGI UltraHeating VRF systems can meet all your heating and cooling needs, with no need for a supplemental heating system. A YMGI VRF system can replace traditionally designed gas furnace and AC/HP coil & outdoor unit systems, and save money on installation and operation.
